MEMORANDUM FOR: Inspector General

I have reviewed DCI Colby's files as held by Executive Registry and found nothing related to assassinations. These files constitute only three folders, and for the record, you should probably have someone review same. I will retain these in my office until I hear from you. Re DCI Raborn, see attached note. This single folder is being retained here for your review.

B. C. Evans  
Executive Secretary

Note for the File:

ES/Evans reviewed ER's file "DCI/Admiral Raborn" 1965-1971 for items which might be of interest to the current investigation (Rock. Commission) and found nothing of interest. This file amounted to just one folder from Box 6 of Job 73-B-397.
